INSTALLING REMOTE CONTROL BATTERIES

1.While pressing the release latch on the back of the remote control, lift the battery compartment cover off of the remote control.

2.Insert two AAA batteries into the battery compartment.

Make sure that you match the + and – symbols on the batteries with the + and – symbols in the battery compartment.

3.Replace the battery compartment cover.

Cautions

- Batteries should not be exposed to excessive heat, such as sunshine, heat registers, or fire.
- Battery chemicals can cause a rash. If the batteries leak, clean the battery compartment with a cloth. If chemicals touch your skin, wash immediately.
- Make sure that batteries are disposed of correctly. Do not burn or incinerate.

Notes

- Do not mix batteries of different types.
- Do not mix old and new batteries.
- Remove batteries when the charge is depleted.
- If the remote control is not going to be used for an extended period of time, remove the batteries.

REMOTE CONTROL
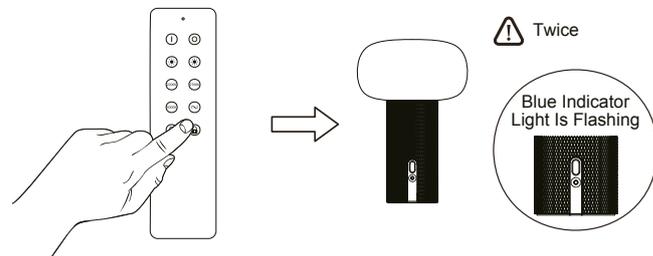

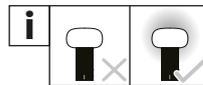

1.Remote control distance: ≤20 meters (open space)
